

NOVEMBERTAGUNG 2008

November 5–9, 2008
Søminestationen, Holbæk, Denmark

For the 19th Novembertagung, Danish historians and philosophers of mathematics are proud to invite junior scholars with an interest in the history of mathematics to *Søminestationen* outside Holbæk, also the site of the 10th Novembertagung.

Participants of the 10th Novembertagung, 1999

The *Novembertagung* on the History of Mathematics is an annual event organized for and by junior researchers (PhD students and post docs) in the history of mathematics. It brings together junior scholars in an informal and friendly atmosphere to discuss issues in the history of mathematics and related fields.

This year, the event takes place at “Søminestationen” near Holbæk in Denmark from November 5 (arrival) to November 9, 2008. The conference will open in Copenhagen on November 5, relocate to Holbæk for 4 days and nights before transporting the participants back to Copenhagen on Sunday.

This year, the theme will be *What can be learned from the history of mathematics?*, but contributions are also welcome outside the main theme. The theme will be introduced based on a pre-circulated text and an invited lecture.

For more information, please refer to the website www.henrikkragh.dk/novembertagung. Registration is open until October 8. As there are only a limited number of beds, please register as soon as possible.

Organizers: Laura Turner (Aarhus), Mikkel Willum Johansen (Copenhagen), Uffe T. Jankvist (Roskilde), and Henrik Kragh Sørensen (Aarhus).

The 19th Novembertagung is supported by:

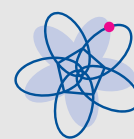

PHIS: The Danish Research Training Programme of Philosophy, History of Ideas and History of Science

Department of Science, Systems and Models (Roskilde University)

Center for the Philosophy of Nature and Science Studies (University of Copenhagen)

Department of Science Studies (University of Aarhus)
